

SOS - Saviors Of Siberians - FOSTER AGREEMENT

Thank you for Fostering a Siberian Husky

SOS - Saviors Of Siberians is an organization which focuses on the homing, networking and rehabilitation of Siberians (Huskies), as well as educating the public about this unique breed and assisting Husky families understand their Huskies better!!

We do not believe in kennel facilities, therefore finding a permanent Husky suitable home (Adopter) or long-term Foster (until adoption), is our top priority.

When you foster, you are providing a loving and warm home to an animal in need. We ask that your foster animals **be part of your family** and that they are allowed indoors. Many of these rescues have no idea what it feels like to be indoors, to be loved and cared for. If they seem wary or scared, please **give them some time to adjust and to figure out what love, warmth and food (regular meals) means.**

Fostering an animal can be a lot of work but it is incredibly rewarding! We will do our best to prepare you, so that fostering can be a wonderful experience. We will always discuss any specific needs that both you and your foster may have.

We believe that during your time fostering you will learn a lot about your foster's character & personality. This is valuable information which we would love you to share with us. We also require lots of clear photographs of your foster. **Ultimately the picture is what will catch a potential adopter's attention... So do send us lots of great pictures!**

Please be so kind as to complete the form below in order for us to have all your information on record, as we like to know who is taking care of our Huskies!
